3D PIKACHU PAPER FIGURE

EXCLUSIVE

If you're a *Pokémon* fan you're probably giggling with anticipation at the thought of making this cool Pikachu model. Okay, so it may take an afternoon to make and you could glue yourself to the table, but the result is well worth it.

YOU NEED THIS IN YOUR LIFE

HOW TO DO IT!

<p>1</p> <p>■ Before folding the BASE, remove the four crescent marks, then glue the reverse.</p>	<p>2</p> <p>■ Cut out the sections of F and G. These are the holes where you will insert the EARS.</p>	<p>3</p> <p>■ Build the MOUTH part next, and then attach it onto the HEAD section.</p>
<p>4</p> <p>■ Make EARS separately then add them onto HEAD. Now the HEAD part is completed.</p>	<p>5</p> <p>■ Make the BODY like a cylinder. Cut along brown line. Do not glue crotch area yet.</p>	<p>6</p> <p>■ Then you carefully build the LEFT SIDE and RIGHT SIDE of the FRONT LEGS separately.</p>
<p>7</p> <p>■ Place HEAD parts onto the BODY. Then add the FRONT LEGS onto the BODY as well.</p>	<p>8</p> <p>■ Glue onto the reverse of the TAIL and fold. Don't glue the reverse of M and L parts.</p>	<p>9</p> <p>■ Insert the TAIL into the BODY. Glue them together on the inside of the BODY.</p>
<p>10</p> <p>■ Build sides of LEGS separately and attach to BODY. Fit thigh then ankle. Then fold crotch.</p>	<p>11</p> <p>■ When LEGS are dry, insert them into the BASE, and glue them on the reverse.</p>	<p>12</p> <p>■ Your PIKACHU is ready. You are now free to rejoice in its cardboard loveliness.</p>

REQUIRED TOOLS

- Scissors
- Cutting knife
- Glue
- Tweezers

BASIC TECHNIQUES

- Solid lines are for cutting.
- Dotted lines are for folding.
- Fold the dotted lines before using glue.
- The dark brown trapezoid and triangle shapes are the "gluing areas". Paste glue onto these areas and join together the same letters or follow the indicating arrows.
- Capital letters are in blue and small letters are in pink. Please do not join the capital and small letters together.
- Gluing areas next to each other are not always marked with letters. So, when gluing a letter, naturally follow the area where it is necessary to add glue.
- You can mould paper into a round shape by rubbing it. It is a good idea to rub the back side of areas which should be a round shape.

CAUTION FOR PARENTS!

Please ensure that children are supervised whilst using the scissors or knives required to make this paper figure of Pikachu.

TELL US WHAT YOU THINK!

Please tell us if you want to see more Nintendo arts and crafts projects in future issues (and it doesn't have to be limited to *Pokémon*). Or maybe building this one made you lose the will to live? Drop us a line.
